

## SYSTEM, METHOD AND COMPUTER PROGRAM PRODUCT FOR A COLLABORATIVE DECISION PLATFORM

### ABSTRACT

A system, method and computer program product are afforded for providing a collaborative decision platform adapted to run on a computer. Initially, an application capable of performing decision logic is executed. Information is then retrieved from a database in accordance with the decision logic. Information is also received from a user in accordance with the decision logic utilizing a user interface. The information is then processed utilizing the decision logic. In use, the foregoing steps are carried out by a collaborative decision platform capable of retrieving and receiving the information, and processing such information for different purposes by executing different applications each capable of performing different decision logic.
